THE War with Spain has cost the nited States just \$164,932,228, according United States just \$164,032,228, according to the annual report of Treasurer E. H. Romanne. On April 3d, 1888, the highwater mark in the Gold Reserve was resched; yet today, after a costly War, the Gold Reserve is over \$30,000,000 higher than it was then. The Gold Reserve now, under a Protective Tariff, it \$240,007,008. In the summer of 1896, under Freetrade, it was below \$90,000,000.

Some weeks ago a seven-year-old Covington girl was riding on the brake that projects from the side of a wagon. She fell off. The wheel passed over her body. She died. Now comes her father and sues the owner of the wagon for \$15,000 damages. He alleges flegilgence on the way of the driver in permitting the child suce the owner of the wagon for \$15,000 changes. He alleres Begligence on the part of the driver in permitting the child to ride on the wagon. And yet, if the driver had warned the child to keep away from the wagon, and if he had been compelled to lay hands on her to make her get off the brake, this same father would have had him arrested for "assault;" and he would have been lucky to escape the Penitentiary—or hanging. The sooner such suits as this are uniformly thrown out of Court the better for the future of the country.

The Battle of Prices Goes Merrily On!

The Price Fighter is again at the helm. He is again in command of his good ship "Low Prices." Standing upon the forward 15 inch gun you see him waving his now famous red flag, upon the flowing folds of which is inserthed also mystic motio, "10 Per Cent. Only—Cash Oily—One Price Oully." What say the people as the breeze unferthed the flag? They have spoken in tones of thunder so plainly that he who runs may read. Boaring over the hills, echology through every creat and crevice of the counties, the mighty voice of a thoroughly aroused people says "lown with high prices and up with The Price Fighter's Red Flag!" Those who are deaf may ask Mayerlie's draymen and transportation companies, so there is no excuse for any one remaining ignorant of the fact that all his neighbors are buying their

Sheriff Thinks Public Sentiment De Not Justify Him in Making Streau-ous Efforts to Capture Them— Negro Assaulted a Girl.

Magra Assainted a cira.

Lacox, Ill., Nov. 8.—The first lynching in central Illinois in many years took place here early Monday morning, when 100 miners from Toluca, a mining town a short distance east of here, broke into the county fall, took out F. W. Stewart, a Toluca Negro, and hanged hint to a troughtly and quietly. Only a few late attragelers actioned the number of strangers who kept arriving into town from the case. They were well organized, however, and shortly after midnight marched in a body to the jail, broke in the doors after a short parley with the sheriff, dragged the Negro from his cell, carried him to a tree a mile from town, where the remainder of the party awaited them, and there swung him to a limb.

Stewart's crime was assault on Priday evening upon Mary O'Brien, the daughter of one of the Toluca miners. Although many in Lacon deplore the Junching, there is a general impression that the Negro was punished as he deserved, and no special effort is being made to discover the klenity of the sunbers of the mob.

Spaniarde Wast Damages for Firing on Manila After the Protocol Had Been Signed—Spaniards Seem Willing to Sell.

Washinoton, Nov. 8.—Spain's exhaustive argument against the cession of the Philippines to the United States has bad the result of making the officials all the more determined to take

has had the result of making the offi-cials all the more determined to take the islands.

Instructions sent to Mr. Day, chair-man of the American commissioners, will require him and his colleagues to renew on Tuesday their demand for concession of the group to the United States and they will make in their com-munication the first offer of money in payment for the islands.

It is understood@that the president will consult Tuesday with some of his advisers concerning the amount to be named in the American communica-tion, but the sum to be paid will not under any consideration exceed the tion, but the sum to be paid will not under any consideration exceed the department of the contracted by the Spanish comment for improve-debts and debts contracted in the name of other islands, such as Cuba, will be barred and the Spanish com-missioners will be informed that they must recognize this fact as promptly as possible.

Rr. Adm. Dewey's victory in Manila

must recognize this fact as roughly as possible.

Rr. Adm. Dewey's victory in Manila bay was unimportant, and the possession of Cavite during the war was not such as to give the Americans, the Spaniards declare, control of the Islands, and it is claimed, and the elaim is fortified by argument and many legal precedents, that the American government has no moral right to demand the eession of the entire group of 1,400 islands when it held only such a small bit of territory as that at Carlett and the controlled only the bay of Manila.

All during the war Spanish troops

Manila.
All during the war Spanish troops were stationed on other islands and were not molested. The Spaniards in dicated their willingness, however, to sell the islands and the authorities have no apprehension now that any rupture will occur unless it be over the amount to be paid.

It is also claim this declaration was a sell to be a sell the islands and the same the control of the camount to be paid.

It is also claim this declaration was a matter of fact, the note had been delivered, but the president McKinley. As a matter of fact, the note had been delivered, but the president had declined to answer it, either in writing or verbally, to M. Cambon.

The Spanish commissioners have declared, it is said, that instead of the United States acquiring the Philippines, this government a hold pay their government an indemnity for the attack on Manila after the peace protocol had been signed and for the damage consequently done.

Secretary Ilay has received a full statement of the contents of the Spanish commissioners will content to the action of the government in delivering the note through M. Cambon, the French ambassador, to Fresident McKinley which sets forth the understanding of the Spanish government that in agreeing to the protocol its sovereignty over the Philippines would not be affected.

After the Philippine question has been disposed of the commissioners will consider the determination of Americans against Spain and by Spaniards against the United States, but this is incorrect. The Spanish commissioners have a heavy claim for fillustering against spain and by Spaniards against the United States, but this is incorrect. The Spanish commissioners have a heavy claim for fillustering against plant and by Spaniards against the United States to off-set the claims filed by Americans for personal and property injuries, and the question of their disposition will have to be decided.

THE STATE ELECTIONS.

Southern States-Light Yots.

Man Forsier-Dop Diffracentised.

Sr. PAUR, Minns, Nov. a.—With a registration fully 25 per cent. below the rote of two years ago a full vote Tuesday can not be expected. Much of this is due to the new constitutional amendment, which has resulted in disfranchising thousands of foreign-born citizens because they had not proved final naturalization papers. Which hart with the party will suffer most because of this is one of the election day problems.

is one of the election day problems.

Small Yoke in Transesser.

Nasuviller, Tenn., Nov. 8.—Indications are that the vote in this state will be much smaller than that polied two years ago. The democratic state executive committee claim that McMillan, the democratic candidate for governor, will be slected by 10,000 majority. The republicans are quiet and making no predictions but the indications are that there will be a good deal of work on their part at the polls.

The Structure in Marriand.

BALTIMORE, Nov. 8.—There has been no material change in the congressional situation in Maryland. The First district is practically conceded to the democrats, as is the Sixth district to the republicans. The others are doubtful, the democrats claiming the Second and Fifth with confidence, and the republicans expressing no doubt as to the result being in their favor in all except the First.

Both Parities Claim North Dakota.
Panco, N. D., Nov. 8.—This state elects Tuesday a full state ticket, as congressman and a legislature which will select a successor to United States Senator Roach. Both parties are claiming the victory on the state ticket, but the fusionists practically concede the legislature to the republicans. Congressman M. J. Johnson is the leading republican candidate for Roach's seat.

The Yots in Illinois.
CHICAGO, Nov. 8.—A tolerably full
vote is expected in Illinois, the registration in Chicago having been as
large as was hoped for by the campaign leaders. Both sides seem confident of carrying the state senatorship

The other districts are safely republican.

Stoux Falls, S. D., Nov. 8.—The election is for state officers, two congressmen and a legislature. There have been defections from both sides, and both claim the victory. The state is a very close one, and the victorious party will not have a long lead and may not pull its entire ticket through.

may not pull its entire ticket through.

Idaho Fusionist Claim the State.

Boiss, Ida, Nov. 8.—Chairman Bassett, of the silver republican state
committee, has given out a statement
by counties of pluralities claimed for
the fusion state ticket. It shows a net
plurality of 6,025. Chairman Morrison,
of the republican committee, claims
the state, but declines to make figures.

The Election in California.

SAN FRANCISCO, Nov. 8.—Everything is in readiness for the election in California. Both the fusion and republican leaders claim they will win, but the republicans seem to be a little more certain. Weather conditions for Tuesday promise to be perfect.

Heavy Vote in Foreida.
